

How does the county school population compare to schools statewide?

Use the county selection tool to change the displays of immunization and exemption rates compared to statewide rates. County and state immunization, exemption and difference measures are rounded to the nearest tenth. Differences are calculated prior to rounding and those highlighted in red reflect immunization measures at the county that are lower or exemption measures at the county that are higher than the state.

Select county

K-12 Immunization rates

	Oregon	Washington	Difference
DTaP/Tdap	93.9%	96.5%	2.6%
MMR	96.3%	98.2%	1.9%
